On the 10th December, 1948 the United Nations (UN) proclaimed the Charta of Human rights. Article 14 says „ every human has the right to get Asylum in other countries because of persecution.“

Human rights are for everyone, from every Nation, Colour, Gender, Culture and Religion. But the reality looks different:

The human rights are trampled systematically and the isolation and discrimination of refugees happens often with all governmental instrument of power and also many times with cruel behaviour.

Since 1993 tens of thousand of people where violently brought back to the countries they came from or to other countries.

The „Grenzschutzagentur“ Frontex, since establishment (in 2005), is jointly responsible for the death of more than 20.000 refugees in the mediterranean. Not a few refugees, who managed it to come to „the fortress europe“ had killed themselves, because of deportation fear. Here in Germany more than hundreds where killed by fascists or came to death by the police (Oury Jalloh and others)! 21 years before, in 1993 the Asylum right was factual abolished! Since then refugees in Germany and in other european countries where systematically disfranchised, humiliated, excluded and a second time traced.

A new law of the Federal Government enlarges the arrest of refugees on. This year, Serbia Bosnia-Herzegovina and Macedonia where amied to be „safe countries of origin“, the consequence is that for example Roma, who escaped from former Yugoslavia to this place, are further persecuted and got no governmental aid at all. Since the 19th of September, Roma, who seeked for protection, in this country, where deported from „Flughafen Baden Airport“ for two times.

Let's fight for the End of Discrimination of refugees!

Equal rights for everyone!

Particularly we want:

- Closing of all Camps and instead dignified accomodation
- Free movement for everyone, the abolishment of "Residenzpflicht"
- Free access to education, medical supply and the labour market
- Stop bringing people to places with no shop, no school and hospital! Close all isolation camps!
- Stop the illegal cut of money!
- Stop deportations!

No one is illegal!
