

## Countrywide demonstration

Against deportation prisons, deportations,  
deportation custody and the further cutback of the  
rights of refugees!

May 13, Pforzheim, Waisenhausplatz, 1 pm

### Why are we demonstrating in Pforzheim?

With a new law, the government wants to enforce more and faster deportations of refugees. To do so, deportation custody should be ordered more easily. A deportation prison was set up in Baden-Württemberg last year. In 2018 it will have 80 places.

People that live here since years are suddenly declared as unwanted and are affected by deportations. In collections, people are deported to Kabul, the Balkans or African countries.

**We will take to the streets against this Flight and migrations are not a crime.** We fight for a world where people are no longer forced to take refuge. We stand up for a right to stay for anyone taking shelter and demand the closing of the deportation prison in Pforzheim and everywhere else.

**Come to the demonstration numerously.**
